City Plumbing, Heating & Electric Wins Hot Springs Village Area Chamber of Commerce Green Award

City Plumbing, Heating, & Electric won the Green Award, sponsored by First Electric Cooperative. Accepting the award are (from left) Rick Bonte, Ronnie Carroll and Elwen Guthrie, Co- Owners of City Plumbing, Heating and Electric.

City Plumbing, Heating, & Electric won the **Green Award** for demonstrating environmental best practices, sustainable development, viable energy alternatives and energy conservation.

“This company strongly believes that the conservation and wise re-use of natural resources is something that will keep this country strong in the near and far distant future,” said Lee Ann Branch, Hot Springs Village Area Chamber of Commerce Executive Director.

“Actively marketing environmentally friendly products and encouraging high-efficient equipment when possible, this company has always been strong in protecting the public water supply.” Examples include: Drain Maid Biosmart, the only drain cleaner on the market with an EPA endorsement for the future; Tank less Gas Water Heaters, A new Heat Pump water heater, the only electric tank heater with an Energy Star Rating; & six State licensed backflow assembly test technicians.

“Their policy is always to do what they can to help their clients conserve water and energy.”

City Plumbing, Heating & Electric is a Green Screened™ Plumbing Company as you can tell by visiting their website, www.cityplumbingandelectric.com
