

# CITY PLUMBING *HEATING* & ELECTRIC, INC.

## Donates \$950

December Press Release

In November City Plumbing, Heating & Electric, Inc. began their "*Giving back To the Community*" program. Now, not only can you have your plumbing, heating or electrical problems solved, but you can help a charitable entity. Nine hundred and fifty dollars was donated to **Charitable Christian Medical Clinic**, representing ten dollars of ever paid service fee for the month.

In this economic climate charitable and nonprofits are also having a tough time making ends meet. You can help City Plumbing, Heating & Electric, *The Best Solution For All Your Service Needs*, "Give Back To The Community." The December recipient of this campaign is **The Jackson House**.

The employees of City Plumbing, Heating & Electric will decide a different charitable organization to receive this donation each month during the campaign. "*At City Plumbing, Heating & Electric we know these economic times are hard on everyone and we want to do what we can to give back to this great community.*" **C.A.S.A.** is the non profit chosen to receive this donation for the month of January.

**You may see which organization the employees of City Plumbing, Heating and Electric have picked to donate to each month by visiting our website**
